## Project Description

According to ADB website, the TA will assist the government to develop a financial inclusion policy and strategy, enhance regulatory rules and practices to support the strategy, and improve the availability of financial inclusion data. It is expected that this policy work will enable and potentially attract strategic investments in new services such as payments, saving products, microinsurance, and new delivery mechanisms for these services such as branchless banking. The impact of the project will be an improved access to a wider range of finance services by low-income individuals and microenterprises outside Baku.

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment.
