Project Description

The Technical Assistance's objective is to help build awareness of Energy Efficiency (EE) and further facilitate private sector participation, and accelerate the development of local and regional EE markets. The TA was designed to address critical financial and information barriers inhibiting the growth of EE markets in Southeast Asia.

The outputs of the TA are (i) dissemination of case studies of selected energy service companies (ESCOs) exemplifying the impact of EE services; and (ii) awareness campaign targeted at business owners and decision-makers.

Investment Description

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
