Project Description

According to ADB website, the expected impact of the project will be enhanced quality of life and sustainable economic development of Xiang River basin in Hunan Province. The outcome of the project will be improved quality of water resource and environment of Dongjiang Lake. The project will include four outputs: (i) improved pollution control, (ii) established urban rural water supply system, (iii) integrated ecosystem rehabilitation and management, and (iv) strengthened environmental and project management capacity.

The project is considered complex as safeguard categorizations for both environment and involuntary resettlement are category A.

Investment Description

- Asian Development Bank (ADB)

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
