### Project Description

According to ADB website, the Government of the People's Republic of China (PRC) through the Office of the Mountain-River-Lake Development Committee of Jiangxi Province (MRLDO) requested capacity development technical assistance (TA) from the Asian Development Bank (ADB) for Natural Disaster Risk Management in the Southern Mountain Area in Jiangxi. The TA was included in ADB's country operations business plan, 2013-2015 for the PRC.

The impact of the TA will be reductions in disaster risks to sustainable development in the Gannan Mountain area. The outcome of the TA will be improved policies and increased local capacity in the Gannan Mountain area to manage disaster risk and adapt to climate change. The expected outputs of the TA will include the following: (i) natural disaster risk assessment of the Gannan Mountain area; (ii) an integrated DRM (IDRM) plan prepared for the Gannan Mountain area; and (iii) training and capacity development for IDRM in the Gannan Mountain area. The TA will specifically develop an IDRM policy brief as a knowledge product.

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
