According to ADB website, the PRC's Twelfth Five-Year Plan (2011-2015) supports the long-term goal of building a harmonious and moderately prosperous (xiaokang) society through livelihood improvement, and regionally balanced and environmentally sustainable growth. ADB has been supporting projects on lakes and wetland protection in the PRC. ADB''s 2011-2015 country partnership strategy (CPS) for the PRC supports the government's overarching strategic goal of building a xiaokang society by focusing on three strategic pillars: inclusive growth, environmentally sustainable growth, and regional cooperation and integration. The proposed TA is fully consistent with the PRC''s Twelfth Five-Year Plan (2011-2015) and ADB''s CPS for the PRC by promoting sustainable management of natural resources and protecting globally significant biodiversity in the Sanjiang Plain.

The impact of the TA will be the improved management of natural resources to protect globally significant biodiversity in the Sanjiang Plain.
