Project Description

According to ADB website, the technical assistance is supporting the government in the design and implementation of a program of economic policy reforms that can improve the investment climate and business environment in Tajikistan. These reforms are expected to (a) mitigate risks that investors and businesses face when operating in Tajikistan, particularly legal and regulatory risks; (b) upgrade productive enterprises; and (c) facilitate and encourage investments. The technical assistance is preparing detailed blueprints for missing institutional mechanisms that can mitigate investors' risks, help productive enterprises expand, and attract investments. Institutional mechanisms being supported include regulatory impact analysis for businesses, investment protection framework including partial credit and investment guarantee schemes, support to international quality certification, support to innovation diffusion, and support to business incubators.

For this TA, the TA Category/Bank risk rating is not disclosed.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
