## Project Description

According to ADB wesbite, the Government's Framework for Economic and Social Reforms recognizes that maintaining a stable macroeconomic framework is the first order of reforms essential for achieving the overall reform agenda and that sound public financial management including public debt management will be critical to ensuring this.

The TA impact will be management of public debt on a sound and sustainable basis. Relevant indicators include an improvement in the country risk rating for debt distress from moderate to low and a debt management performance assessment that will be undertaken toward the end of the TA.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
