Project Description

According to ADB website, the TA is consistent with the aims of the government's Urban Policy Action Plan and ADB's Pacific Approach, 2010 2014, which identifies urban development, water, and sanitation as operational priorities. The TA is also in line with the Urban Operational Plan, 2012 2020, which promotes livable cities that are green, competitive, and socially inclusive; and the Water Operational Plan, 2011 2020, which promotes more efficient water use across users, and expanded wastewater management and reuse including sanitation.

The impact of the project will be the improved well-being of Fiji's urban population. The outcome of the project will be efficient, effective, and sustainable management of urban development in the GSA.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
