Project Description

According to ADB website, the project preparatory TA intends to prepare the Urban Services Improvement Sector Project. The TA is required to:

1. Conduct assessments of existing water supply and solid waste management systems, including surveys and stakeholder consultations
2. Develop water supply and solid waste investment strategies for Dili to help identify and prioritize project components for the ensuing loan project
3. Determine the feasibility of the proposed investments for priority infrastructure and systems improvements
4. Ensure that detailed design work supervised by DNSA is carried out to the required quality, and (v) identify appropriate project management arrangements to ensure that MOP and Estatal have adequate capacity to implement the project.

Investment Description

- Asian Development Bank (ADB)

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
