Project Description

According to ADB website, The investment package will support economic activity of underserved farmers, and micro and small and medium sized businesses (MSMBs).

With bank assets to GDP at less than 28% Tajikistan s financial intermediation is very low and trails far behind other transition economies. Intermediation spreads are high and the stability of banks is weak. Only 3 banks and 7 MFIs exceed 1000 borrowing clients. Although MFIs have made efforts in serving households and MSMBs, the overall significance of their outreach remains limited.
