Project Description

According to ADB documents, the Government of the People's Republic of China requested ADB to provide technical assistance (TA) to improve energy efficiency, emission control, and compliance management of the manufacturing industry. The impact will be improved energy efficiency in the PRC's manufacturing industry. This will be measured by the reduction in energy consumption and CO2 emissions per gross domestic product. The outcome will be an enhanced policy framework stimulating energy efficient and low emission products. Safeguard categorization is not applicable for this project.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
