Voting Date	2014-09-16
Borrower	People's Republic of China, National Development and Reform Commission
Sectors	Law and Government
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.40 million

Project Description

According to ADB website, the country partnership strategy positions ADB's public sector operations to strengthen the enabling environment for private sector development by financing infrastructure, supporting policy and regulatory reforms, and improving access to finance. Urban development is identified as a priority area for support for private sector participation and PPPs during 2011-2015. The CPS also provides for the complementary support for knowledge sharing to promote best practices.

The impact will be a strengthened enabling environment for PPPs. Performance will be measured by the ranking of the PRC’s enabling environment for PPPs in the Asian Infrascope’s developed country category by 2018. The outcome will be an improved legal framework for the promotion, development, and implementation of PPPs. Performance will be measured by the presentation of a draft concession law to the State Council in 2015.

Investment Description

- Asian Development Bank (ADB)

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
