Project Description

According to ADB website, ADB is supporting Georgia’s reform program to help strengthen its finances and support inclusive growth. The project will help improve management of public finance and fiscal risk; strengthen revenue and public expenditure management; boost domestic savings by revamping the pension system; and increase mobilization of private resources for investment.

The program will enhance inclusive growth options by opening up the fiscal space for the government to meet its planned significant funding of inclusive social and economic services. To achieve this, the program will support fiscal consolidation, improve revenue management, strengthen public expenditure management, enhance the generation of domestic savings, and increase private resource mobilization for investment opportunities, especially for micro, small, and medium-sized businesses.
