Project Description

According to ADB website, the TA will support the government in managing the dual challenge of maintaining government debt sustainability while setting up legal, regulatory, and institutional frameworks facilitating availability of long-term capital for productive business and infrastructure investments. Key development issues to be addressed by the TA include enhancing generation of domestic savings, providing investment opportunities by developing money and debt markets, and managing public debt and fiscal risks better. A well-functioning legal and regulatory environment in these areas is an essential facilitator in spurring economic growth and creating fiscal space. The government is taking steps to ensure that the financial sector is supportive of development in the real sector and is focusing on macroeconomic stability, effective public administration, and private sector competitiveness to boost economic growth and share its benefits.
