Project Description

The Government of Mongolia has requested the Asian Development Bank (ADB) to finance a policy and advisory technical assistance (PATA) for an ITS development plan for Mongolia. The main objective of the TA is to identify ITS service needs to improve road safety management and operation. Advances in ITS can enhance quality of life and support sustainable socio-economic development in Mongolia. The TA is included in the Country Operation Business Plan: Mongolia 2015.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
