Project Description

According to ADB's website, the project description is:

In 2012, the Government of the People's Republic of China (PRC) asked the Asian Development Bank (ADB) to provide capacity development technical assistance (TA) for Sustainable and Climate-Resilient Land Management in Western PRC. The TA, financed by the Global Environment Facility (GEF), will complement government efforts to expand the regional scope of the PRC_GEF Partnership on Land Degradation in Dryland Ecosystems and support sustainable land management (SLM) investments in selected provinces and autonomous regions. In February 2014, an ADB mission visited the PRC and reached an understanding with the government on the TA impact, outcome, outputs, cost estimates, financing plan, terms of reference for consultants, and implementation arrangements, including TA delegation.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
