Project Description

According to ADB website, to meet the growing demand for knowledge products and services the proposed technical assistance will:

1. Facilitate AAA policy dialogue with the government
2. Support immediate requests for knowledge services such as just in time knowledge, conferences and high level policy discussions with eminent persons
3. Strengthen the delivery of development support. The technical assistance will ensure improved, high quality knowledge products meet country needs and demands with timely delivery and targeted dissemination.

The impact will be improved knowledge-based policy dialogue. The outcome will be strengthened knowledge management and sharing in Indonesia. Knowledge-based policy dialogue stemming from ADB support will be evident in the policies. The effectiveness of this TA will be evident if there is an increase in demand. This will be tracked and reported at the annual discussions of knowledge services.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
