## Project Description

According to ADB website, the ADB is helping Tonga reconstruct the electricity network and school facilities that were damaged by Cyclone Ian in January 2014. The project will upgrade the main electricity network in the Ha’apai islands to make it more resilient to extreme weather events and disasters. Most of the damaged schools will be rebuilt as well as climate- and disaster-proofed by the project.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
