Project Description

The proposed project has been developed based on the request of NEMA and in close consultation with other key agencies working on DRM initiatives in Mongolia. The project will integrate and complement the on-going DRM initiatives in Mongolia and build on the lessons learnt from the work implemented by relevant partner agencies in Mongolia working on DRM. The project will explore collaboration with the Japanese Space Exploration Agency on the use of remote sensing technology in DRM.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
