ADB-48276-001

Institutional Development of National Water Supply and Drainage Board

Project Description

This project funds review of the institutional structure of the National Water Supply and Drainage Board and develop a more efficient and accountable system. It will promote regulation, environment and social, and non-revenue water management as well as upgrading existing functions. It will assist staff in developing significant technical skills.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
