## **Project Description**

This technical assistance identifies transportation bottlenecks, performs analysis of possible mitigation measures and small transportation investments. The assistance will also conduct pre-feasibility studies of possible urban transport systems, including eco-friendly public transportation, and the possibility of public private partnerships. These will also include climate resilience measure recommendations for the urban environment.

**ACCOUNTABILITY MECHANISM OF ADB**

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
