Project Description

According to the bank website, "The transaction TA facility will provide capacity building, project preparation and implementation support, and knowledge sharing to help improve Sri Lanka's portfolio performance. The TA facility will improve the readiness of pipeline projects and support the implementation of ongoing projects through (i) demand-driven and tailored capacity development programs on project design, implementation, evaluation, cross-cutting thematic areas, and procurement; (ii) structured annual portfolio reviews; and (iii) documenting lessons learned and developing knowledge products for sharing and cross-learning among sectors and the region. These will ensure project readiness and quality at entry of pipeline projects and sound implementation performance of ongoing projects. However, if such capacity is not available, the TA facility will prioritize the mobilization of national experts. Mobilization of international experts will be considered if national experts are not available."

ACCESS TO INFORMATION

You can submit an information request for project information at: https://www.adb.org/forms/request-information-form

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: https://www.adb.org/site/disclosure/appeals

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
