### **Project Description**

According to the bank document, the proposed project supports boosting competitiveness in value chains for rice, beans, pulses, and oilseeds in the Magway, Mandalay, and Sagaing regions in the central dry zone (CDZ).

The project seeks to increase climate resilience for critical rural infrastructure, promote quality and safety testing capacity, strengthen technical and institutional capacity for climate-smart agriculture (CSA), and create an enabling policy environment for climate-friendly agribusinesses.

The project also aims to reduce food insecurity and rural poverty, increase smallholders' incomes and access to markets, and improve resource efficiency and environmental sustainability for agribusinesses.
