## Project Description

According to ADB website, the proposed Port Development Project will improve port operations in Nauru by constructing a quay wall and access causeway at Aiwo, reconstructing port buildings, container storage and strengthening institutional capacity of the Nauru Ports Authority (NPA). The main objective of the project is to provide a climate resilient port to allow reliable transport links for the import of food, goods and fuel and potentially export of phosphate and products including fish and limestone rock and aggregate.

The project has the following components:

1. Detailed Design
2. Construction Activities
3. Port Reform and Project Management

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
