Project Description

According to ADB website, the ADB financed the rehabilitation of the first two turbine-generator units and secondary electrical equipment of the largest and most important power plant in the Kyrgyz Republic under the Power Sector Rehabilitation Project (Phase 1) and the Toktogul Rehabilitation Phase 2 Project.

The phase 3 project aims to:
1. Complete the rehabilitation of the Toktogul hydroelectric power plant (HPP) by replacing the two remaining turbine-generator units and refurbishing the civil structures of Toktogul dam
2. Overhaul the dam monitoring systems at five dams along the Naryn cascade
3. Continue the information campaign to educate the public on sector reforms
4. Conduct corporate financial audits and business operation assessments of eight state-owned power and heat companies
5. Implement a management modernization program for the power generation company.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
