## **Project Description**

This project is a policy and advisory technical assistance to help enhance Georgia's public sector capacity to engage private sector effectively in economic development, particularly by standardizing and outlining the role of the government in public-private-partnership (PPP) arrangements for infrastructure and service delivery.

This project is expected to strengthen the risk management capacity for PPP projects, and develop standard concession agreements, contracts, and tender documents.

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at:
