Project Description

According to ADB website, the proposed Distribution Grid Development Sector Project for Viet Nam Power Corporations will support the Socialist Republic of Viet Nam in the implementation of its seventh

Power Development Plan 2011 2020 (PDP VII) to provide adequate and reliable power supply to sustain economic growth, and expand employment and income-generating opportunities articulated in the socioeconomic development strategy of Viet Nam. The project will assist part of the government's investment program in strengthening the power distribution system, managed by the five distribution power corporations (PCs) of state-owned Vietnam Electricity (EVN). It will support: (i) upgrading and development of 220 kilovolt (kV), 110 kV, and medium voltage (6 kV to 35 kV) power networks including associated substations in the urban and industrial areas across the country; and (ii) capacity strengthening of the PCs.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
