| Countries | Timor-Leste |
| Financial Institutions | Asian Development Bank (ADB) |
| Status | Proposed |
| Bank Risk Rating | B |
| Borrower | Government of Timor Leste |
| Sectors | Energy, Infrastructure |
| Investment Type(s) | Loan |
| Investment Amount (USD) | \$ 30.00 million |
| Project Cost (USD) | \$ 30.00 million |

Project Description

The proposed investment program will finance targeted investments, consistent with the Government of Timor-Leste's priorities and the objectives of the country partnership strategy. The Government of Timor-Leste has indicated its intention to attract a suitably qualified and experienced utility operator to assume management responsibility for EDTL under a public-private partnership (PPP) arrangement ; likely a lease or concession arrangement, but similar in essence to a performance-based management contract. The accompanying parallel technical assistance to be provided and managed by ADB's Office of Public-Private Partnerships (OPPP) will support the government's objective of leveraging private-sector innovation and capacity to improve EDTL's commercial performance and further reduce costs.

A Multitranche Financing Facility (MFF) is proposed. The use of the MFF modality is considered appropriate, as: (i) the proposed facility will support a sequenced program of investment in distribution assets and systems, and investment in generation assets to reduce Timor-Leste's reliance on diesel fuel; (ii) the project supports Timor-Leste's Strategic Development Plan 2011-2030; and (iii) due to capacity constraints, the investments must be sequenced to focus on priority investments in distribution assets and systems and then on generation investments.

IMPACT

Reduced constraints on economic growth

OUTCOME

Improved level of service and fiscal performance of EDTL

Investment Description

- Asian Development Bank (ADB)

Mandarin, Dili, Timor-Leste

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
