### **Project Description**

This project builds on concepts and findings from previous and ongoing ADB loans to provide assistance to Georgia in mainstreaming an integrated urban planning and development process. The objective is to assist in urban development and policy formulation. This project will finance the development and/or updating of integrated urban plans in select cities and towns, or a thematic economic corridor, such as for tourism or agribusiness.

The overall program to which this project contributes finances urban water supply, sanitation, transport improvements, and other urban municipal infrastructure including tourism infrastructure, cultural heritage conservation, and urban regeneration.

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
