<b>Bank Risk Rating</b>	A
<b>Borrower</b>	Government of Pakistan
<b>Sectors</b>	Agriculture and Forestry
<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 200.00 million

---

## Project Description

According to bank documents, "the proposed project will support the construction of the Choubara branch of the Greater Thal Canal (GTC) irrigation scheme covering around 119,000 hectares, along with support for on-farm command area development (CAD) for the Main Canal, Mankera and Choubara area and capacity development of the government entities and water users for efficient water uses and management, improved agricultural practices and sustainability of infrastructure.

The Main Canal and the Mankera branch covering about 144,000 hectares of command areas have been constructed by the Government in 2009. The proposed project is designed as the first project of potential phased-support for sequentially completing the development of the entire GTC scheme."

Outcomes of the project will be enhanced food security and reduced rural poverty as agricultural production in the project area increases.

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
