Project Description

According to ADB website, the project will focus on Yerevan city, Ararat, Armavir, and the mountainous Aragatsotn region. These regions have a combined population of 1.8 million (50% of the country's population) and cover an area of more than 5,400 square kilometers. The main reasons for focusing on this geographical area, especially Yerevan and the Ararat, are their economic importance, vulnerability to over abstraction of ground water, drought, climate change, and absence of intersectoral river basin management plans.
