Developing Cost-Effective Policies and Investments to Achieve Climate and Air Quality Goals

Early Warning System

ADB-49388-001

Developing Cost-Effective Policies and Investments to Achieve Climate and Air Quality Goals

Quick Facts

Countries	China
Specific Location	Beijing–Tianjin–Hebei Region
Financial Institutions	Asian Development Bank (ADB)
Status	Active
Bank Risk Rating	B
Voting Date	2015-12-14
Borrower	Government of People's Republic of China
Sectors	Climate and Environment
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.75 million
Project Cost (USD)	$ 0.82 million

Project Description

The proposed technical assistance (TA) will use, expand, and tailor an existing model to the Beijing-Tianjin-Hebei (BTH) region to support the government in (i) assessing the interaction of climate and clean air policies; (ii) capturing co-benefits and identifying synergies between policies across sectors; (iii) taking measures that are cost-effective and well-coordinated within the BTH region; (iv) identifying policy and management approaches that strengthen incentives for plant-level compliance with energy transformation and environmental objectives; (v) projecting the impact of incentives created by market-based instruments to be established, such as the national emissions trading system; and (vi) studying the health impacts of policies.

Investment Description

- Asian Development Bank (ADB)

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
