## Project Description

The project consists of activities relating to relief efforts addressing the most urgent survival and livelihood needs of people affected by the harsh dzud winter weather conditions that have been prevalent in numerous districts across the country since early December 2015. The grant is part of a United Nations-led emergency response for herders and their families afflicted by a protracted climate disaster in Mongolia, known as a “dzud.”

ADB’s grant complements some \$2.4 million being provided by the UN and will help address the most urgent needs of the vulnerable and affected populations, including food, hay, forage, medical supplies, and fuel. In Mongolia, ADB approvals amounted to \$297.5 million in 2015, including 4 sovereign loans for \$275 million, 2 project grants for 6 million, and 17 technical assistance grants for \$16.5 million

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
