ADB-49450-010

Capacity Building and Sector Reform for Renewable Energy Investments  
in the Pacific

## Quick Facts

Financial Institutions	Asian Development Bank (ADB)
Status	Approved
Bank Risk Rating	B
Voting Date	2017-11-22
Borrower	Region: Pacific
Sectors	Energy, Technical Cooperation
Investment Type(s)	Advisory Services
Project Cost (USD)	\$ 5.00 million

### Project Description

The proposed regional transaction TA will provide capacity building and policy advice support to a series of ongoing and ensuing projects, comprising projects included in the indicative project pipeline under the Pacific Renewable Energy Investment Facility (the Facility), and other investment projects in energy planned or proposed in COBPs of PARD DMCs. This transaction TA is not, in and of itself, included in any country's COBP; it is complementary to operations included such COBPs.

The proposed regional transaction TA will support the sustainability of energy investments in the Pacific, including projects to be implemented under the Pacific Renewable Energy Investment Facility (the Facility) and financed by ADB or other sources. The Facility was approved on 22 June 2017 for up to \$200 million to finance a series of individual small-value renewable energy projects in the 11 smaller Pacific island countries (PIC-11), and support regional approaches for energy sector reform, private sector development, and capacity building. The Facility was designed to streamline ADB's internal procedures, enhancing its ability to process small-value projects in the PIC-11 faster and with lower transaction costs. The proposed regional transaction TA will support similar energy sector reform, private sector development, and capacity building objectives in countries other than those covered by the Facility (i.e. non PIC-11 countries - Papua New Guinea, Timor-Leste, and Vanuatu).

Geographic Location: Cook Islands , Kiribati , Marshall Islands , Micronesia, Nauru , Palau , Samoa , Solomon Islands , Tonga , Tuvalu , Vanuatu

### CONSULTING SERVICES

ADB will be responsible for selection and supervision of consultants engaged under the TA. Consultant areas of expertise will be consistent with activities prescribed in paragraphs 14 through 18, and will include: (i) energy sector policy and strategic planning, (ii) public utility regulation and governance, (iii) electric power utility operations, (iv) financial management and accounting, enterprise resource planning (ERP) and corporate management information systems (MIS) design and implementation, and business process re-engineering. ADB will engage consultants in accordance with ADB Procurement Policy (2017, as amended from time to time) and the associated PAIs/TA Staff Instructions.

## Investment Description

- Asian Development Bank (ADB)

Financed by Green Climate Fund

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
