Project Description

According to the bank's website, "The proposed transaction technical assistance (TA) facility will assess the potential and feasibility, develop a roadmap, and build institutional capacity to deploy floating photovoltaic (FPV) projects in the 11 small Pacific island countries (PIC-11). The TA will also conduct all required due diligence and assist in procurement for the first three FPV projects for approval in 2022-2023 under the Pacific Renewable Energy Investment Facility (facility). The TA will also conduct pre-feasibility studies for the next three FPV projects for potential ADB and private sector financing. It will develop a roadmap with a pipeline of FPV projects in the PIC-11 to address vulnerabilities and needs, considering current energy sector plans and strategies, interventions and utility reforms, and include demand-side management and efficiency measures as well as value-added end-uses beyond electricity."

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
