Project Description

As stated by the ADB, the project will finance investment in renewable energy generation and related facilities in the smaller islands of the FSM helping improve access to electricity and drinking water, enhancing climate resilience of livelihoods through bolstering energy security, reducing reliance on fossil fuels for power generation improving the utilization of renewable energy and rehabilitating dilapidated renewable energy infrastructure.

The project will support improvement in planning, design, implementation, operation, and infrastructure delivery in fragile and small island states that are particularly vulnerable to climate change and disaster related shocks.

Early Warning System Project Analysis

The ADB categorized the project risks as follows:

- Environment: B
- Involuntary Resettlement: B
- Indigenous Peoples: C

ACCESS TO INFORMATION

You can submit an information request for project information at: https://www.adb.org/forms/request-information-form

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: https://www.adb.org/site/disclosure/appeals

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
