Sustainable Energy Access in Eastern Indonesia-Electricity Grid
Development Program

Quick Facts

Countries	Indonesia
Specific Location	Nusa Tenggara and Sulawesi
Financial Institutions	Asian Development Bank (ADB)
Status	Approved
Bank Risk Rating	B
Voting Date	2017-09-14
Borrower	PT. Perusahaan Listrik Negara
Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	\$ 600.00 million
Loan Amount (USD)	\$ 600.00 million
Project Cost (USD)	\$ 1,830.00 million

Project Description

According to ADB website, the result-based loan (RBL) program aims to support the development of electricity distribution networks to connect businesses and households and to enhance the quality of life in Eastern Indonesia by the sustainable use of electricity as a key driver of increased economic activity. The program will complement a proposed sector loan for small- to mid-sized natural gas-fired power stations to deliver more sustainable energy services to communities across Eastern Indonesia. Natural gas is a much cleaner fuel compared to diesel and the quick-responding nature of gas-fired engines and turbines make them a good match for intermittent renewable energy sources such as solar and wind. It is an appropriate _transition fuel_ to move towards a low-carbon energy system. The two loans will help enhance access to sustainable energy services and contribute to climate change mitigation.

Investment Description

- Asian Development Bank (ADB)

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
