## **Project Description**

According to ADB website, the project will support to (i) deploy the distributed renewable energy systems in remote and less developed regions in Mongolia, and (ii) enhance capacity of local public utilities in investment planning, project management, and grid control for sustainable renewable energy upscaling in the targeted region. Upon successful completion, the project delivers clean electricity to 70,000 households while annually avoiding 82,789 tons of carbon dioxide emission. Further, the impact will be imported electricity reduced and energy security improved.

**ACCOUNTABILITY MECHANISM OF ADB**

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
