Project Description

Mongolia is facing severe economic difficulties. Significant cuts in the education budget for 2017 and beyond greatly constrain the government''s capacity to mitigate further deterioration of education services. This will result in lost opportunities for pre-primary, primary, and secondary education, especially for children who come from disadvantaged backgrounds. Support from the Asian Development Bank is urgently needed to minimize the negative effects during this difficult economic period by (i) narrowing the gap in the enrollment capacity of schools and kindergartens in Ulaanbaatar and some aimag (administrative subdivision) centers, (ii) supporting the completion of unfinished curriculum reform and associated assessment system reforms, (iii) ensuring the provision of teaching and learning materials that accompany the new curriculum, (iv) upgrading the skills and knowledge of teachers and managers for the new curriculum and assessments, and (v) strengthening systems for planning and managing education services.
