Project Description

According to ADB Technical Assistance Report, the Central Asia Regional Economic Cooperation (CAREC) Program's strategic framework for 2011–2020 (CAREC 2020) has two strategic objectives: expand trade and improve industrial competitiveness. Trade facilitation is one of four priority areas within the CAREC 2020 strategic framework. Work in this area is guided by the Transport and Trade Facilitation Strategy 2020, which focuses on the development of six CAREC corridors through infrastructure investments and trade facilitation initiatives to improve the movement of goods and people through and across these corridors. This TA will support the continuation of customs reforms and modernization efforts undertaken by CAREC countries. The impact of the TA will be improved flow of goods and people within the CAREC region. The outcome will be improved trade facilitation in CAREC countries.
