<b>Investment Type(s)</b>	Advisory Services, Grant
<b>Investment Amount (USD)</b>	\$ 1.00 million
<b>Project Cost (USD)</b>	\$ 1.00 million

## Project Description

According to ADB website, the proposed subproject is part of the cluster regional research and development technical assistance that will support the preparation of the flagship publication the Key Indicators for Asia and the Pacific (KI) for the next 3 years. The publication provides (i) the latest comprehensive compendium and analysis of trends in economic, social, financial, and environmental indicators including those pertaining to the Sustainable Development Goals (SDGs) for ADB's regional members; (ii) a unique set of reliable and accurate statistics on global value chains (GVCs) that capture trade links across countries and industries while accounting for the complex input output relationships involved in producing goods and services; and (iii) a special chapter that provides in-depth, data-intensive analysis of an important policy issue.

The TA is designed to address development issues from two perspectives: (i) informing policy discussions on inclusive growth through rigorous empirical analyses of survey and administrative data; and (ii) disseminating official statistics of the developing member countries (DMCs), other economic and social indicators, and survey data sets in an integrated format and through both print and digital media as well as through online databases.

Executing Agencies

Asian Development Bank

6 ADB Avenue,

Mandaluyong City 1550, Philippines

No country implementing agencies information was disclosure

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
