Status	Active
Bank Risk Rating	U
Voting Date	2016-07-22
Sectors	Agriculture and Forestry
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.50 million

Project Description

DESCRIPTION

The proposed Amochhu Land Development and Township Project will develop 160 hectares (ha) of riparian land near the city of Phuentsholing that is located adjacent to the Amochhu River on Bhutans southwestern border with India. The project will provide protection from floods and erosion, and construct smart urban infrastructure to allow phased urban expansion. A modern township will be designed on modern sustainable principles of equity, livability, and competitiveness, and it will be integrated into the fabric of the existing municipality and preserve Bhutans unique architectural heritage. The project will also protect the existing and new towns from floods and riverbank erosion which currently threatens lives and livelihoods and disrupts connectivity with nearby communities.

PROJECT RATIONALE AND LINKAGE TO COUNTRY/REGIONAL STRATEGY

Bhutan is a mountainous country with limited suitable land for urban growth. This particularly applies for Phuentsholing which has reached its limits for expansion, being constrained by the Amochhu River and surrounding steep terrain and conservation areas. Phuentsholing is Bhutans busiest border city with India, located on two South Asia Subregional Economic Cooperation trading corridors, and is the countrys largest commercial and industrial hub. This Project will develop a modern township designed on modern sustainable principles of equity, livability, and competitiveness, and it will be integrated into the fabric of the existing municipality and preserve Bhutans unique architectural heritage. The Project will also protect the existing and new towns from floods and riverbank erosion which currently threatens lives and livelihoods and disrupts connectivity with nearby communities.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
