### Project Description

According to bank website, "The Supporting Fourth Primary Education Development Program will support Bangladesh' primary education system covering all children from pre-primary to grade 5 nationwide. The program builds on the achievements of previous programs with a stronger focus on strengthening quality of education and enhancing institutional management. The program aligns with the Seventh Five-Year Plan, 2016-2020, and the Asian Development Bank (ADB) country partnership strategy for Bangladesh, 2016-2020, which indicates ADB's continued support to primary education and highlights the priority on quality enhancement. The impact of the program is strengthened human capital formation. The outcome will be improved quality and equity of primary education.

The program has three outputs: (i) quality of primary education improved; (ii) access and participation to primary education enhanced; and (iii) governance and management of primary education system improved. The total cost for the program is \$14.6 billion, with \$500 million financed by a concessional loan from ADB. Implementation of the project started in November 2018. The proposed transaction technical assistance (TA) for \$1.2 million, to be financed by the Japan Fund for Poverty Reduction, will support implementation of the project. The project and TA align with ADB's Strategy 2030, which calls for improving education."

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
