Project Description

According to bank website, "the project will support the government in developing the applied science and technology faculties in four universities to nurture a new breed of technology-oriented graduates equipped with market relevant skills and entrepreneurial spirit. It will address lack of financing for priority degree programs, which are in high demand from students and industry. The project will provide innovative and industry-relevant technology education and research facilities, help quality curriculum design and academic staffing aligned with international standards, and provide competitive grant scheme and capacity development opportunities."

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
