#### **Project Description**

According to ADB website, enhancing the local health care system is a key priority of the Government of Viet Nam. In this regard, the Ministry of Health (MOH) will spearhead the implementation of the government's Master Plan for Strengthening the Local Health Care Program (SLHCP).

SLHCP will consolidate and build on efforts to improve the quality of and access to primary health care services, especially for the poor and ethnic minorities in remote, border, and disadvantaged areas. It seeks to improve the network of local health facilities (consisting of commune health stations (CHS), district health centers, and district hospitals) to meet the changing health requirements of the population. More specifically, SLHCP will:

- 1. Upgrade the local health facilities to meet national standards
- 2. Strengthen health human resources
- 3. Improve operating and financing mechanisms
- 4. Enhance local health system management

#### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
