South Asia Subregional Economic Cooperation Port Access Elevated Highway Project

Early Warning System

ADB-50299-001

South Asia Subregional Economic Cooperation Port Access Elevated Highway Project

Quick Facts

Countries	Sri Lanka
Specific Location	Colombo
Financial Institutions	Asian Development Bank (ADB)
Status	Approved
Bank Risk Rating	B
Voting Date	2018-09-27
Borrower	Government of Sri Lanka
Sectors	Transport
Investment Type(s)	Advisory Services, Loan
Investment Amount (USD)	$ 301.75 million
Loan Amount (USD)	$ 300.00 million
Project Cost (USD)	$ 644.48 million

Project Description

According to the ADB, "the proposed project will finance the construction of about 5.3 kilometers of an elevated toll highway with related facilities between the New Kelani Bridge (NKB) and Galle Face in central Colombo. It will provide a direct link to the city center and the port from the Colombo- Katunayake Expressway via the NKB, and then extend the expressway network into the city. The project will help alleviate traffic congestion in Colombo's densely populated areas, improve last-mile connectivity between the country's expressway network and Colombo's international port, provide better logistics services for freight operations, and facilitate regional trade."

Investment Description

- Asian Development Bank (ADB)

Co-financing:

Japan International Cooperation Agency US$ 342.73 million

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
