The investment program will improve the accessibility of the road network in Sri Lanka's rural areas, and thereby increase the involvement of the rural population in nationwide economic and social development. It will upgrade and maintain about 3,400 kilometers (km) of rural access roads to all-weather standard; rehabilitate and maintain to a good condition about 340 km of national roads in Eastern, Northern, Uva, and Western provinces; and improve the capacity of road agencies with respect to safeguards, road safety, maintenance, research capacity, and road design and construction."
