## Project Description

According to the bank document, the project will develop geothermal steam resources through production and injection facilities and construct, operate, and maintain a power generation plant with a total capacity of approximately 90 megawatts (MW) in South Sumatra.

The project will develop geothermal steam resources through production and injection facilities and construct, operate, and maintain a power generation plant with a total capacity of approximately 90 megawatts (MW). The project is located in the Muara Enim, Rahat Regencies and Pagar Alam City, approximately 290 kilometers (km) from Palembang, the capital city of South Sumatra Province.

The project will be developed and implemented under a 30-year power purchase agreement (PPA) with PLN (the off-taker) and 15-year support from the Ministry of Finance, as stipulated under a business viability guarantee letter (BVGL). It is intended for base load operation. PLN will develop a 40 km of 150 kV transmission line from the plant site to the 150 kilovolts (kV) Lumut Balai substation.

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
