Project Description

According to the bank document, the proposed knowledge and support technical assistance (TA) will support the development of policy frameworks for accelerating the reform of application-oriented undergraduate programs at local universities in Yunnan Province through research, capacity development, and policy advice to promote socioeconomic development and regional cooperation with Southeast Asian countries.

The Government of the People's Republic of China (PRC) has requested the TA from the Asian Development Bank (ADB) as part of its efforts to rationalize the higher education system in Yunnan Province to fill critical skills gaps in local and regional labor markets. Following a mission in March 2018, ADB and the government reached an understanding on the TA objectives, scope, implementation arrangements, costs, and terms of reference for consultants. The TA is included in ADB's country operations business plan for the PRC, 2018 2020.
