Deepening Civil Society Engagement for Development Effectiveness -
Deepening ADB-Civil Society Engag

Quick Facts

Financial Institutions	Asian Development Bank (ADB)
Status	Active
Bank Risk Rating	U
Voting Date	2017-12-20
Sectors	Technical Cooperation
Investment Type(s)	Fund
Investment Amount (USD)	\$ 0.40 million

Project Description

According to the bank website, The project seeks to support ADB's corporate strategic directions and enable the Sustainable Development and Climate Change Department (SDCC) to help the ADB's regional departments operationalize them through more constructive engagement with civil society. The TA cluster will focus on the external constraints that have been identified and will also demonstrate new ways of engaging with civil society through operationalizing ongoing improvements in ADB's internal business processes (internal constraints).

The TA cluster will contribute to the improved delivery of inclusive development services in selected DMCs, in support of the SDGs, by contributing to stronger CSO participation in ADB operations. The three outputs of the TA cluster are:

Output 1: Capacity for effective CSO engagement in the design, implementation, and monitoring of ADB projects improved.

Output 2: Demonstration activities through effective CSO engagement conducted.

Output 3: Knowledge products about effective CSO engagement in ADB operations generated and shared.

Investment Description

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
